Because the process of creating, drafting and estimating your landscaping requires considerable time and attention to detail, we ask that a design deposit be agreed upon in earnest in order to begin designing your plan. The amount of this design deposit is determined by your designer and is based upon the scope of the design project. Receipt of the design deposit and return of the plan to our office is due within 30 days following the presentation of our plan if landscape installation has not yet been contracted. The deposit amount will be applied in credit toward your installation purchases provided that the design deposit is 10 % or less of your total contracted installation work and provided that installation occurs within 90 days of the presentation of the plan. All design concepts on the plan not installed by Prairieview Landscaping Company remain the property of Prairieview and cannot be implemented without proper authorization.

Design Deposit Amount: _____
